

## Attachment for Komatsu Forklift

Attachment for Komatsu Forklifts - Komatsu Forklift U.S.A. Inc. has an outstanding reputation for building dependable and resilient lift trucks. Komatsu is recognized around the globe as a business with a rich heritage while maintaining an admirable benchmark of modernization and quality in both design and equipment manufacturing.

Komatsu Forklift U.S.A., Inc., a division of Komatsu Forklift Co., Ltd., International Division and Komatsu Utility Co., Ltd remains faithful to their pledge of helping to build a healthier tomorrow. The company heritage dates back to 1921, when Komatsu, Ltd began in Japan as a manufacturer of mining and construction equipment. Very quickly the company grew into an industry leader and was responsible for building Japan's first contemporary bull dozer and farm tractor.

Komatsu has grown into an international giant over the previous couple of decades due to their competence and strength in the field of logistics, mining, excavating and construction. Using progressive concepts and technological superiority, they continue to be at the forefront of these industries.

Since 1945, Komatsu Forklift Co. Ltd has grown tremendously. Using modern design approaches and superior production functionality, Komatsu has distinguished themselves through the manufacture of reliable and rugged forklifts that buyers from around the world have come to rely on. In 1976, Komatsu Forklift U.S.A., Inc was created to satisfy the increasing need for its products in the North American marketplace. To better expenditures and efficiencies, a contemporary facility was built in Covington, Georgia in 1990, to consolidate all U.S. Komatsu Forklift product support and production operations.

Remaining one of the principal suppliers and manufacturers of durable and innovative lift trucks in our day, Komatsu Forklift U.S.A., Inc continues to satisfy their customers' needs worldwide. Central and Latin America, Mexico, the Caribbean and South America are home to some of Komatsu's happy clients along with their North American clients.

Following years of delivering consumer service and maintaining rapport, Komatsu Forklift understands that meeting the customers' needs is vital. All the latest product enhancement at Komatsu starts first with the customer. By welcoming input and criticism, they are able to determine customer needs and expectations then cultivate revolutionary designs and then manufacture to exceed Komatsu Engineering Standards. Assuring consumers that quality is planned from the start and continued throughout the manufacturing, service and sales processes, allows Komatsu to end up with a first-class product from start to finish.

The engineers at Komatsu are experts who specialize in designing heavy-duty equipment, forklifts and construction equipment. Their design expertise assures that every piece of equipment will endure in even the toughest applications and environments. Adherence to strict engineering principles permits Komatsu Forklift to satisfy ISO 9001 standards. Computer aided design and rigorous in-house quality standards all add to top-quality lift truck products. Komatsu Engineering Standards translate the contemporary and innovative expertise used in advanced mining and construction equipment into world class equipment.

The modern and well-organized factory in Covington, Georgia is a full service facility. This contemporary plant starts the manufacturing process with raw steel which is then welded, designed and prepared. When assembled and painted the lift trucks are ready to leave the facility and enter the marketplace. Maintaining quality control throughout the duration of the manufacturing process, assures consumers that the quality is built into Komatsu's products from the very beginning.

Komatsu believes that since a product is only as valuable as the people who sell and support it, their sellers make all the difference. Komatsu Forklift is proud of their dedicated seller networks who strive to exceed expectations. Specialized in all elements from product sales, service or operating training, or aftermarket support, their diverse network of experienced and capable professionals are available. Komatsu Forklift Vendor locations across the country have a Komatsu OEM components on-hand to offer the essential service required to keep customers' operations running smoothly. Computerized, real-time access with next day transport from their highly automated circulation hub is an alternative option. The on-line K-Link system assists sellers with on-line components management, service and acquisition for all major forklift brands.

At Komatsu Forklift U.S.A., Inc. they know how to serve National Accounts. A lot of world-class businesses depend on Komatsu forklifts in their daily operations. Countrywide account consumers profit from a unique relationship with Komatsu that enables them to customize cost-efficient services in order to increase the customer's productivity and profits. Komatsu national account clients have access to on-line parts and service support system and a wide-ranging fleet administration program, offering the ability for Komatsu to be their total solution for any forklift concerns.

The efficient and reliable team members at Komatsu Forklift U.S.A., are committed to offering excellent customer support whether it comes in the form of instruction, sales, aftermarket support, and longterm maintenance. They want to make certain that the customer support provided will help their customers satisfy or exceed their company goals while establishing strong working partnerships in the process. Komatsu strives to understand each of their customers' unique methods of doing business and enjoys working together to develop a plan to best insure their ongoing success.

Komatsu encourages you to get in contact with one of their many community Komatsu forklift dealers to learn more about the many products and services available. Customer satisfaction and support are two of the businesses top priorities and it is easy to see why thousands of clients world-wide depend on the Komatsu family of products on a daily basis.
